Emperor: a New Zealand Brand

Emperor is a popular choice

Emperor is a NZ food services packaging brand with a quality product range, experienced sales and technical support teams, large stock levels and efficient dispatch

systems. Our product manufacturers have been carefully selected following extensive product testing and evaluation of companies who comply with relevant international standards and certifications.

Our quality products are trusted

Quality is assured via regular monitoring and inspections by Emperor management of all production facilities, and all testing and quality control procedures, to

maintain the highest level of quality and consistency. We engage an independent agent to inspect and test each shipment following production and prior to dispatch.

We have a strong NZ presence

The Emperor brand is owned by Uni-Pak, a company based in Whanganui with distribution centres located in Whanganui and Christchurch. Operating as

a distributor since 2004, Uni-Pak has taken responsibility for promoting the recycling or composting of our product range. The extensive Emperor product range is gaining recognition throughout New Zealand as a result of Uni-Pak's large distribution footprint.

The people behind Emperor

Uni-Pak is the sole New Zealand distributor of the Emperor range of products. Uni-Pak provides Emperor brand and product guidance and undertakes all sales,

service and technical support. Uni-Pak supplies Emperor foodwraps, drinkware, bags, tableware and containers to a broad range of food services and packaging-related distributors.

Value Adding Products

Emperor is a value driven brand, from manufacture to promotion.

Supplier Credentials Checklist

All Emperor product manufacturers have successfully participated in UniPak's sustainability assessment. The information supplied has proven to be very useful and insightful:

- we have a clearer understanding of how products are made
- how energy and water is sourced and how much is used
- where raw materials are sourced
- how waste is managed
- how quality and environmental factors are controlled
- how emissions and discharges are managed
- how employment standards are managed
- how procurement is management and
- we have an appreciation of how much focus is being placed on sustainable business practice.

Many Emperor product suppliers are meeting our requirements, some are exceeding, and some are below. This feedback is helping our product suppliers enhance their operations moving forward. A full report has been produced for our reference and future assessments will be completed to measure progress.

Online Brochure Production

This brochure has been designed to display only our current product range within a product category. This means products no longer stocked have been removed and new products have been added.

This online version ensures that the brochure is always up to date for customer reference. You can save this brochure as a PDF and also print it out for ready reference. You can also save or print individual pages using your printer settings.

By operating this automatic online brochure system we hope that fewer trees are made into paper, fewer resources are used in production and delivery (inks, electricity, water and fuel) and less waste is generated (redundant brochures end up as waste if not recycled properly).

If you would like to receive a pre-printed brochure that includes all Emperor products, within all product categories, then please call our freephone number and we can assist. Please note that these versions are limited and not designed for broad distribution. They are not updated on a regular basis and we cannot guarantee that all products listed will be available.

Food Wraps

Make prepping and clean up a breeze with Emperor's catering foil, cling wrap, baking paper and greaseproof sheets. All products are available in various sizes and our foil, cling wrap and baking paper come in dispensing boxes with built in slide cutters.

Catering Foil

Emperor aluminium foil is a high-quality product, available in different sizes and in standard and heavy duty thickness. Foil is great for covering large surface pans and trays, as well as covering and lining hot cooking surfaces.

Packaged in a convenient cutter-box dispenser.

- Aluminium foil can be recycled if cleaned prior to disposal.

Catering Foil

Heavy Duty Catering Foil
Roll 440mm x 150m

Standard Duty Catering
Foil 440mm x 150m

Standard Duty Catering
Foil Roll 300mm x 150m

Standard Duty Catering
Foil Roll 440mm x 90m

Heavy Duty Catering Foil Roll 440mm x 150m

Item Code 1200-507

Uses: Emperor aluminum foil is a high-quality product, designed to provide a higher resistance to punctures and tears. This makes it great for covering and transporting larger surface pans and trays, as well as covering and lining hot cooking surfaces. Packaged in a convenient cutter-box dispenser, you can quickly and easily pull out the desired amount of foil and tear off by gently pulling down across the teeth of the blade (making daily prep and clean-up a breeze). Aluminium foil can also be recycled if cleaned prior to disposal. Ideal for more delicate catering requirements and general kitchen applications. Lower thickness and greater flexibility. High puncture and tear-resistance. Oven safe. Line baking sheets and ovens, cover grills and grill grates. Convenient cutter-box design for easy use.
